UK and Ireland January 2025

Here comes the season to be frozen. Cold season but warm hearts!!

Climate Change UK and Ireland January 2025

Unusual conditions.
Parts of the Country are at a standstill.
Temperatures continue to fall with a low of - 8 recorded.

A snowy day literally falls from the sky
unbidden and seems like a thing of wonder.
(Susan Orlean)

I could see the flakes and smell the chill
and hear the cold wind blow,
so I grabbed my coat and ran outside
to taste the year's first snow.

Winter, winter you have come,
Very cold has the weather become.
