Care for Our Common Home

RNDM News

The purpose of this newsletter is to provide news of RNDM involvement in actions and activities related to our ministry of Caring for Our Common Home.

Good news story from Bangladesh

“Every Small Action Counts”

Plastic waste is a major environmental concern due to its persistence in the environment. Plastic pollution is a widespread environmental problem with various consequences for our planet. The excessive use of single-use plastics has led to a global crisis, impacting ecosystems, wildlife, and human health. Plastic waste is a global environmental issues. Every year, millions of tons of plastic waste are generated globally and leak into aquatic ecosystems, polluting lakes, rivers, and seas.

With so many environmental concerns happening right now, it's important to transform our surroundings into sustainable spaces. In our journey towards a more eco-conscious world, every choice matters including the planters we use for gardening.

Recycled plastic planters are not just a stylish choice for beautifying our environment, they're a statement of our commitment to environmental stewardship. By opting for planters made from recycled plastic, we may help to reduce environmental pollution and its harmful effects on wildlife and ecosystems and also reduce energy demand and lower carbon footprint, contributing to the fight against climate change.

Our Sisters, Aspirants, Postulants and hostel girls of Urban and rural communities in Bangladesh Province are Recycling various plastic containers, bottles, jars and reusing these plastic elements as a vegetables and flowers pots. Recycling and sustainable practices are essential for addressing this issue. Embracing recycled plastic planters is a responsible choice towards a sustainable future. Every small action counts. Let's protect and inspire each other to save our Mother Earth from the plastic waste pollution and make a better place for future generations.
